

WOMEN IN ESTONIAN MARINE SCIENCE

327 dissertations in biology in Tartu University since 1991
28 (8.5%) dissertations in marine biology
15 (4.5%) dissertations defended by women

Helen Orav-Kotta

PhD defence: 2004

Field: Benthic communities

Current job: Senior Researcher

ResearchGate

Inga Lips

PhD defence: 2005

Field: Cyanobacteria

Current job: Lead Researcher

ResearchGate

Anu Albert

PhD defence: 2007

Field: Fish community

Current job: Researcher

unuftp.is

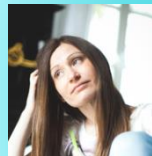

Kaire Torn

PhD defence: 2008

Field: Charophytes

Current job: Senior Researcher

ResearchGate

Ele Vahtmäe

PhD defence: 2009

Field: Remote sensing

Current job: Senior Researcher

ResearchGate

Velda Lauringson

PhD defence: 2010

Field: Suspension feeders

Current job: Researcher

ResearchGate

Liisa Metsamaa

PhD defence: 2009

Field: Remote sensing

Current job: Senior Researcher

ResearchGate

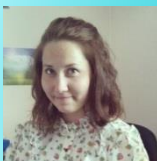

Maria Põllupüü

PhD defence: 2010

Field: Cladocerans

Current job: Specialist

ResearchGate

Merli Pärnoja

PhD defence: 2013

Field: Macrophytes

Current job: Researcher

sea.ee

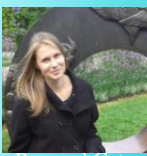

Riina Klais

PhD defence: 2011

Field: Phytoplankton

Current job: Researcher

ResearchGate

Anastasiia Kovtun-Kante

PhD defence: 2015

Field: Charophytes

Current job: Laboratory Assistant

ResearchGate

Külli Lokko

PhD defence: 2014

Field: Zoopsammon

Current job: Junior Researcher

sea.ee

Liina Pajusalu

PhD defence: 2016

Field: Acidification effects

Current job: Junior Researcher

ResearchGate

Tiia Möller

PhD defence: 2017

Field: Eelgrass

Current job: Researcher

ResearchGate

Katarina Oganjan

PhD defence: 2017

Field: Suspension feeders

Current job: Junior Researcher

ResearchGate
